

IM-101 HSK INDUSTRIAL WOOD SHAPER MACHINE

Increase production and efficiency with Ideal Machine's IM-101 Wood Shaper. HSK63 cutter head, touch screen controls, and adjustable cast iron fence make this a superior industrial wood shaper.

I don't have time for tool changes on a shaper?

Swing the self-locking feeder out of the way, push a button and pop out the HSK tool-holder. Drop a new one in and swing the feeder back. Done!

I want to increase product output.

With an HSK Industrial Wood Shaper your operators will be faster thanks to the intuitive touch screen controls and power material feeder.

I need repeatable, high-quality cuts.

The high-precision electric spindle paired with superior tooling create the **IDEAL** quietly operating machine and higher quality cut.

(See what we did there?)

IM-101 Shaper Specifications

- HSK interchangeable spindle, standard.
- 8 HP at 7,500 RPM
- 230 volt, 3 phase, 60 hz standard (480 volt available)
- Variable spindle RPM
- Bore diameter determined by tool holders
- Adjustable cast iron fence
- Part length max: none
- Part length min: 3-1/2" (depending on part width)
- Tool diameter: 5" (up to 7" available upon request)
- Dust collection: outlets at 4"
- Compressed air required: 80 PSI

IM-101 Shaper Available Options

- 480 volt motor
- 7" tool diameter
- Complete tooling setup
